

Kashish Saxena

Currently pursuing Bachelors in Computer Science Engineering with Specialization in Artificial Intelligence and Machine Learning from GLA University, Mathura . I have a passion for computer programming. I have used computer since I was in middle school. This passion has given me the ability to program and design websites. Looking to utilize my technology and leadership skills in an esteemed organization. I would love to work in an environment where there is a strong competitive atmosphere to develop the self as well as the organisation's reputation.
